Re: APPLICATION TO DO RESEARCH PROJECT

Permission has been granted to Ms SC Vellema to conduct research on "**FACTORS INFLUENCING THE ABILITY OF PRIMARY HEALTH CARE NURSES TO DIAGNOSE TB IN CHILDREN**".

Included find the following:

- Letter of approval for this research project by the Mpumalanga Health Research Ethics Committee
- Letter of agreement to be signed by respondent and the researcher

As such, please give your co-operation in this regard, as the research could contribute to improved management of TB in children.

Kind regards

Ms NJ Mtsweni
Director Gert Sibande District
